[miguel.chumillas@gmail.com](mailto:miguel.chumillas@gmail.com) 

I'm a Frontend/Backend Developer with over 20 years of experience. Specialized in UI and RESTful APIs. I use PHP, React/Next.js, Vue.js/Nuxt.js/Quasar, Node.js, Typescript/Javascript, TailwindCSS, SCSS, MySQL, MongoDB, Oracle and PHP frameworks like Laravel, Kohana, CodeIgniter... Extensive experience building responsive and accessible websites, using WAI-ARIA standards, and integrating payment solutions such as PayPal, Square and Stripe. Strong problem-solving and code-debugging skills. Ability to manage and work in a team and communicate with developers, designers and project managers. I'm pro-active, reliable, organized and responsible. I'm looking for a company with great projects where I can learn, grow, and contribute with my experience.

## Arsenal

## Key Skills

- Frontend:** Expert in Vue.js (Nuxt & Quasar), React (Next.js), and accessible UI design (WAI-ARIA)..
- Backend:** Proficient in PHP (Laravel, Kohana, CodeIgniter...), Node.js, and currently exploring Rust.
- Other:** Strong in JavaScript/TypeScript, SCSS, TailwindCSS, MySQL, MongoDB and Oracle. Skilled in Git and CI/CD workflows.
- Code Quality:** Advocate for clean code with ESLint/Prettier, TypeScript and robust coding standards.
- Testing:** Experienced with Cypress (E2E), Jest and Vitest for unit testing.
- Problem Solving:** Analytical, reliable, attention to detail, always learning, and skilled at debugging complex systems.

# Experience

## UD IBÉRICA, JUN 2023 - NOV 2024

---

### Role: Team Management / Frontend Developer

Hired as Frontend Developer to revamp the 116 emergency service, from Java to Quasar (Vue Framework) with TypeScript, ESLint, Prettier, GitLab CI/CD, Vitest, Cypress and Docker. I was later entrusted with leading the team using Scrum, and helped onboarding new members that I interviewed. Although backend (Node.js, Oracle), was not my responsibility I assisted them with reverse engineering of the original app.

Quasar

ESlint

SCSS

TypeScript

Node.js

Oracle

Vitest

Cypress

Nginx

Docker

Redis

## AXIS, 2002 - 2023

---

### Role: Team Management / Fullstack Developer

I started my journey at Axis as a Frontend developer its inception, programming in Flash (Actionscript), Javascript, JQuery, HTML, PHP, CSS, JSON, XML... In the last 10 years I've specialized on React (using Next.js) and Vue 2/3 (using Nuxt.js), Javascript/TypeScript, SASS/SCSS, Node.js and PHP, creating applications and web pages. Throughout these 20 years, I have had various roles, Frontend, Fullstack, maintenance work on Azure, Amazon, Linux environments, but also leading teams. Latest works:

[promedica.org](https://promedica.org) site built using Sitecore SDK (JSS) for Next.js (React), TypeScript, TailwindCSS, ESLint, GraphQL, Axios, Storybook and Sentry.

[radicava.com](https://radicava.com) site built using Next.js (React), Faker (JSON), JavaScript, ESLint and SCSS.

[therapystudios.com](https://therapystudios.com) site built using PHP, MongoDB, HTML5, JavaScript, JQuery and SCSS.

[herathedogvodka.com](https://herathedogvodka.com) site built using Nuxt.js (Vue), TypeScript, ESLint, SCSS, Axios, PHP and MySQL.

[evpconsulting.com](https://evpconsulting.com) site built using PHP, HTML5, JavaScript, JQuery and SCSS.

[ohioba.com](https://ohioba.com) site built using Next.js (React), JavaScript, ESLint, SCSS, Axios, PHP and MySQL.

[hechostudios.com](https://hechostudios.com) site built using Nuxt.js (Vue), JavaScript, ESLint, SCSS, Axios, PHP and MySQL.

[oneclock.co](https://oneclock.co) eCommerce site built using Liquid (Shopify language), JavaScript and CSS.

[syntheticpictures.com](https://syntheticpictures.com) site built using PHP, MySQL, HTML5, JavaScript, JQuery and SCSS.

[pacificislandtuna.com](https://pacificislandtuna.com) site built using Nuxt.js (Vue), JavaScript, ESLint, SCSS, Axios, PHP and MySQL.

## HAIKUMEDIA

---

### Role: Freelance Web Developer

[princessmargaret.org](https://princessmargaret.org) Hired to build a site using mainly CodeIgniter (PHP), HTML5, JavaScript, JQuery, SCSS and MySQL.

## BRAINSTANTSOUPE

---

### Role: Web Developer

Hired to build apps and websites using mainly PHP, HTML5, JavaScript, JQuery, CSS and MySQL.

## SKILLS

- **Languages:** PHP, React, Next.js, Vue.js, Nuxt.js, Quasar, Node.js, Typescript/Javascript, TailwindCSS, SCSS, MySQL, MongoDB, Oracle.
- **Daily tools:** VSCode, Slack, Illustrator, Photoshop, Figma, Jira, Asana, Teams...
- **Web development:** Responsive and accessible pages, using WAI-ARIA standards.
- **Work methodology:** Scrum.
- Experience in Shopify and payment solutions like PayPal, Square and Stripe.
- Strong problem-solving and code-debugging skills.
